

# Scott Semlitz | Software Engineer

Canton, GA | 201-574-3105 | [scottsemlitz1@gmail.com](mailto:scottsemlitz1@gmail.com) | [in/scott-semlitz](https://www.linkedin.com/in/scott-semlitz) | [gh/scott-semlitz](https://github.com/scott-semlitz)

## TECHNICAL SKILLS

HTML | JavaScript | CSS | *my*SQL | PostgreSQL | Git | Github | Ruby | Python | Node | Express.js | Mongoose | MongoDB | Terminal | APIs | Accessibility and Responsive Web Design

## TECHNICAL PROJECTS

### **Re/mind** | Team Project

Web Developer/Github Manager | 1 day | [Live](#) | [Github](#)

HTML, CSS, JavaScript, MongoDB, Express, React, Node

- Created a daily affirmations application for a General Assembly Hack-a-thon
- Used the MERN stack to achieve an application that lets the user add 3 things they are thankful for that day and also view/delete past entries

### **Zombodie2Love** | Team Project

Web Developer/Github Manager | 1 week | [Live](#) | [Github](#)

HTML, CSS, JavaScript, MongoDB, Express, React, Node, Socket.io

- Created a dating application where users can match with other users and then have live conversations
- Used the MERN stack in combination with Socket.io to achieve real-time communication
- Includes a preferences system to only find other users that match those preferences

### **RT-Deals** | Solo Project

Web Developer | 1 week | [Live](#) | [Github](#)

HTML, CSS, JavaScript, MongoDB, Express, Node

- Created a deal aggregator application so users can post latest consumer deals
- Used the MEN stack and also includes Google OAuth for user sign-in
- Certain features protected by if the user is logged in, such as editing and deleting deals

### **Personal Portfolio** | Solo Project

Web Developer | 1 week | [Live](#) | [Github](#)

- Created a personal portfolio that displays my projects, resume, and contact information
- Used as a baseline for my projects and also includes JavaScript to easily add in new projects
- Included CSS that makes the portfolio have responsive design

## WORK EXPERIENCE

### **Freelance** Remote Offensive Securities 2022

- Created a notes system for a discord bot that connected to a *my*SQL database using Python
- Notes system used slash commands that were restricted to specific Discord Roles
- Each command was logged into a specific channel for auditing purposes
- Created a user record once a user joined the Discord server

### **Desk Assistant** Wayne, NJ William Paterson University 2019-2020

- Provided excellent customer service to students and guests entering the dormitories
- Recorded any abnormalities or violations of students into Excel spreadsheet and organized the Excel spreadsheet

*daily*

- *Answered questions over the phone and kept consistent communication with my supervisor*

**General Sales Associate/Customer Service Representative** Wayne, NJ Micro Center 2016-2017

- *Consistently stayed up to date with new technologies to recommend to customers*
- *Communicated with multiple team to find best solution for customer needs*
- *Accomplished a protection plan add-on rate of 10%, by advising the customer on the benefits*

**EDUCATION**

**General Assembly Remote** *Software Engineering Immersive 2022*

- 12-week training program providing a deep dive into the world of software engineering, focusing on improving skills in Full Stack applications using JavaScript, React, Node, MongoDB, and more

**William Paterson University Wayne, NJ** *Bachelor of Arts in Communications 2020*

- Summa Cum Laude
- Dean's List
- Cumulative GPA: 3.86/4.0
